Another NSF grant: SDCI

I got another NSF grant, this one under the program Software Development for CyberInfrastructures. The official note is [here](#). My co-PIs are [Stanley Grant](#), [Michael Goodrich](#), and [Robero Tamassia](#) from Brown. We are going to develop a trust management component that can be plugged into Wikis for scientific information sharing. [Sara](#) has been doing a lot of work on studying the behavior of Wikipedia users. We'll use those findings to establish the right trust model for Wikis.
